Intelligence and Enforcement

Intelligence Landscape (Updates in red)

BLUF:

- At this time (19 February 2022:1200), the overall threat to CBSA officers and infrastructure is still low, but caution should be exercised in light of recent law enforcement actions and reporting surrounding IMVE messaging and activity.
- ITAC assesses that the terrorism threat to uniformed personnel is medium.

ANALYSIS:

General Threats

- No update.** CBSA has now received various threats via email and telephone. The Border Information Services (BIS) has received multiple threatening phone calls from an American citizen that were threatening in nature.
- Two phone numbers that left explicit and vulgar voicemails to the Canadian Consulate General in Dallas, TX have been identified. s.38
- Given the events over the past few days in Ottawa, ON, Surrey, BC, Coutts, AB and Windsor, ON, there has been an intensification of online messaging of violence towards law enforcement personnel and a level of desperation as protests are quelled. This may compel some individuals to conduct violent action against targets of opportunity.

POE Threats

- An ongoing analysis of SRT reporting, OSINT s.37 indicates that there are no credible threats currently identified for any POEs. Of note, law enforcement actions in Ottawa, ON, such as arrests and dispersions, may encourage individuals to blockade POEs in response.
- As of 1030, 19 February 2022, there is no sign of demonstrations at Lacolle POE. Enhanced vigilance today (FEB 19) at St-Bernard-de-Lacolle POE; SQ and RCMP are engaged and enforcing proactively.

Ideologically Motivated Violent Extremism (IMVE)

- The large law enforcement presence in Ottawa, ON may emboldened IMVE actors to attempt to cross into Canada from the U.S. to join protests as they believe law enforcement could be distracted or strained.
- PAC Intel has advised officers to maintain a heightened alert level for possible IMVE threat actors attempting to join protests from the U.S. A believed member of the Soldiers of Oden IMVE group has made threats of violence on a social media video and insinuates there will be more protests

(uncorroborated) at the borders. Soldiers of Oden are reported to have violent members and are linked to anti-immigrant political beliefs. This is another indication of IMVE groups with a nexus to the protests have become more vocal as enforcement action ramps up.

Other Threats

- **Ongoing threat.** The size, unorganized potential and general distraction of some these POE protests continue to create conditions where both criminal actors and migrants may use the events to illegally cross the border into Canada. This may also include protesters who wish to join events on the Canadian side of the border, but do not want to report to Border Service Officers.
 - o Peace Bridge POE advised that there was a port runner at 4:41am involving a commercial vehicle under the shipping company **Personal Info.** At this time, there is no indication that the incident is linked to the ongoing protest.
